Payment of Obligation of Lapsed Appropriation

1. There does not appear to be any reason why [REDACTED] of the Confidential Funds Regulations cannot be used as authority for payment of this amount, provided it is otherwise acceptable as a proper charge against the contract. Since it is in excess of \$1,000.00 it will require the approval of the Executive.

2. It is noted on the [REDACTED], as well as in the supporting statements that there appears to be a typographical error in the computation of the fixed fee. Since it should properly be \$506.00 rather than \$50.00 it would seem advisable to return this for correction before payment.
